

目次

ACKNOWLEDGEMENTS	4
ABSTRACT	5
TABLE OF CONTENTS	6
LIST OF FIGURES	7
LIST OF TABLES	9
1. INTRODUCTION	10
1.1 BACKLASH VS. LOST MOTION	17
1.1.1 Measuring backlash.	18
1.2 LOST MOTION AND STIFFNESS.	20
1.3 BACKLASH COMPENSATION	20
1.4 ADDITIONAL FACTORS	22
1.5 IMPACT ON REPEATABILITY AND PRECISION.	22
1.6 HISTORY OF THE LINEAR GUIDES	23
1.7 STRUCTURE OF LINEAR GUIDES	25
1.8 COMPARISON OF ACCURACY GRADE AND PRELOAD CODE	28
1.9 THE LASER	30
1.9.1 Physics	31
1.9.2 History	34
1.9.3 Solid-state lasers	37
1.9.4 Semiconductor lasers	38
2. EQUIPMENT	40
2.1 THE HARDWARE	40
2.1.1 CCD Laser Displacement Sensor	42
2.1.2. Green LED Incorporated Digital Micrometer.	46
2.1.3 Servo motor	49
2.1.3.1 Servo motors	50
2.1.3.1 Servo Amplifiers	51
2.2 SOFTWARE	55
3. LOST MOTION STATION TEST	57
3.1 ASSEMBLY STATION	58
3.2 ALGORITHM	61
3.3 SOFTWARE INTERFACE	62
4. DYNAMIC PRECISION TEST	65
4.1 ASSEMBLY STATION	66
4.2 ALGORITHM	67

4.3 SOFTWARE INTERFACE 71

5. RESULT AND DISCUSSION 73

5.1 RESULT AND DISCUSSION FOR LOST MOTION TEST 73

5.2 RESULT AND DISCUSSION FOR DYNAMIC PRECISION TEST 75

5.3 CONCLUSIONS 79

List of Figures

Figure 1: Example of backlash in the tooth [7] 19

Figure 2: Wall printing in Egypt [8] 23

Figure 3: French patent [8]. 25

Figure 4: Structure of Linear Guides [8]. 26

Figure 5: Elements of motion system [9]. 27

Figure 6: Typical closed loop (velocity) servo system [9]. 27

Figure 7: Lost motion station equipment, 1) Servo amplifiers, 2) Servo motor, 3) Scan Laser, 4) Scan Laser Display 5) Interface board and 6) Optical table. 41

Figure 8. Dynamic precision test. 1) Optical triangulation sensor, 2) Optical triangulation sensor display, 3) X table and 4) Base support linear system. 41

Figure 9: Principle of optical triangulation sensing [4] 42

Figure 10: The LK-G Series Laser Displacement Sensors [10] 44

Figure 11: Reference distance for LK-G15 [9] 45

Figure 12: HL-CCD principle measuring function [12]. 48

Figure 13: LS-7010 measurement point display function [12] 49

Figure 14: Servo motor example [13]. 50

Figure 15: Servo amplifier example [13]. 51

Figure 16: LabVIEW start page. 55

Figure 17: Lost motion test diagram. 57

Figure 18: RS-232 communication formula. 59

Figure 19: Movement of the precision test shifting (the material origin: NSK) 61

Figure 20: Interface lost motion test program. 63

Figure 21: Interface lost motion test parameters. 64

Figure 22: Dynamic precision test assembly diagram. 65

Figure 23: Diagram assembly of lateral measuring. 68

Figure 24: Diagram assembly of lateral measuring, A) Assembly, B) Show the measuring area, and C) the distances are measuring and stored. 69

Figure 25: Diagram assembly of top measuring. 70

Figure 26: Diagram assembly of top measuring. 71

Figure 27: Dynamic precision test interface. 72
